RUKMA V S

SOFTWARE TEST ENGINEER

+91 7907115738 • rukmasudheer1999@gmail.com • linkedin.com/in/rukmavs1 • North Paravur, Ernakulam, Kerala

PROFESSIONAL SUMMARY

Detail-oriented Quality Assurance Tester with 1 year 8+ months of experience in Agile/Scrum environments, specializing in enterprise web and mobile applications across ERP, HRMS, and Project Management platforms. Skilled across the complete Software Testing Life Cycle (STLC), including functional, integration, regression, smoke, sanity, exploratory, and end-to-end testing. Hands-on experience in REST API testing via Postman, backend SQL data verification, and UI test automation using Playwright with TypeScript. Adept at translating complex business logic into rigorous test scenarios, logging detailed defects, and collaborating with cross-functional teams to ensure high-quality software releases.

CORE COMPETENCIES & TECHNICAL SKILLS

Testing Disciplines:	Functional, Integration, Regression, Smoke & Sanity, End-to-End (E2E), Exploratory, Risk-Based Testing, Cross-Browser & Mobile Testing
Domain Experience:	Enterprise ERP, Human Resource Management Systems (HRMS), Project Management & Task Tracking Solutions
Test Management & Agile:	Test Scenarios, Detailed Test Cases, Defect Life Cycle & Retesting, TestRail, Agile/Scrum Ceremonies
API & Database Testing:	REST API Validation (Postman, Swagger), SQL Data Verification, Data Integrity & Transaction Testing
Automation & Tools:	Playwright + TypeScript, VS Code
Platforms & Environments:	Web, Mobile (Android), Windows

PROFESSIONAL EXPERIENCE

Associate Quality Analyst
Jan 2025 – Present

Letmedoit Technologies Pvt. Ltd. *Angamaly, Kerala*

- Perform end-to-end functional, integration, regression, smoke, sanity, and exploratory testing across enterprise ERP, HRMS, and Project Management platforms.
- Translate business requirement documents and user stories into comprehensive test scenarios, test cases, and risk-based coverage matrices.
- Validate core HRMS workflows, including employee profile onboarding, attendance tracking, leave management rules, and multi-tier approval hierarchies.
- Verify project management solution capabilities such as task allocation, milestone tracking, resource utilization, role permissions, and status reporting dashboards.
- Execute testing on the Garage360 ERP platform covering Operations, Inventory Management, and Accounting modules; verified tax logic, transaction ledgers, and billing calculations.
- Validate REST APIs using Postman and Swagger to verify endpoint payloads, status codes, query parameters, and response schemas.
- Execute SQL queries to validate backend transactions, ledger updates, database state changes, and data persistence.
- Log, track, and retest defects with step-by-step reproduction notes, expected vs. actual outcomes, logs, and screenshots.
- Build and maintain automated UI regression scripts using Playwright with TypeScript to optimize testing cycles.

QA Intern
Mar 2022 – May 2022

Letmedoit Technologies Pvt. Ltd. *Angamaly, Kerala*

- Executed functional, usability, and UI sanity checks across web applications to catch defects early in sprint cycles.
- Assisted senior QA engineers in preparing test checklists, scenario breakdowns, and bug verification passes.
- Collaborated with developers to clarify issue steps, recreate intermittent errors, and confirm resolved bug tickets.
- Documented test execution results, logged observations, and presented weekly QA status logs.

KEY PROJECTS

Enterprise HRMS Solution: Tested core human resource workflows including employee master data, leave policies, attendance tracking, role-based access control, and self-service approval pipelines.

Project Management & Tracking Solution: Validated task lifecycles, project boards, time logs, milestone schedules, dependency workflows, and management reporting views.

Garage360 ERP Platform: Conducted in-depth testing across Operations, Inventory, and Accounting modules; validated vehicle service pipelines, parts allocation, invoicing, and ledger balance consistency.

Tower Management System (SpotOn GIL & TalkPool): Tested telecom site allocation workflows, role-based security configurations, field-level data validation rules, and automated status-reporting pipelines.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications (BCA) 2020

MG University, Kerala

Software Testing Specialist Certified

National Council for Technology and Training (Luminar Technolab, Kakkanad)

Manual Software Testing + Agile with JIRA Completed
