RUKMA V S

SOFTWARE TEST ENGINEER

+91 7907115738 • rukmasudheer1999@gmail.com • linkedin.com/in/rukmavs1 • North Paravur, Ernakulam, Kerala

PROFESSIONAL SUMMARY

Detail-oriented Quality Assurance Tester with 1 year 8+ months of experience in Agile/Scrum environments, with hands-on ERP domain knowledge across Operations, Inventory Management, and Accounting modules, alongside HRMS and Project Management platforms. Skilled across the complete Software Testing Life Cycle (STLC), including functional, integration, regression, smoke, sanity, exploratory, and end-to-end testing. Experienced in client interaction, client coordination, and requirement gathering. Hands-on experience in REST API testing via Postman and backend SQL data verification, with basic knowledge of UI test automation using Playwright with TypeScript. Adept at translating complex business logic into rigorous test scenarios, logging detailed defects, and collaborating with cross-functional teams to ensure high-quality software releases.

CORE COMPETENCIES & TECHNICAL SKILLS

ERP Domain Knowledge:	Operations, Inventory Management, and Accounting modules; tax logic, transaction ledgers, billing calculations, invoicing, parts allocation, and ledger balance consistency
Testing Disciplines:	Functional, Integration, Regression, Smoke & Sanity, End-to-End (E2E), Exploratory, Risk-Based Testing, Cross-Browser & Mobile Testing
Client & Requirements:	Client Interaction, Client Coordination, Requirement Gathering
Other Domains:	Human Resource Management Systems (HRMS), Project Management & Task Tracking Solutions
Test Management & Agile:	Test Scenarios, Detailed Test Cases, Defect Life Cycle & Retesting, TestRail, JIRA, Agile/Scrum Ceremonies
API & Database Testing:	REST API Validation (Postman), SQL Data Verification, Data Integrity & Transaction Testing
Automation & Tools:	Playwright + TypeScript (Basic), VS Code
Platforms & Environments:	Web, Mobile (Android), Windows

PROFESSIONAL EXPERIENCE

Associate Quality Analyst **Jan 2025 – Present**

Letmedoit Technologies Pvt. Ltd. *Angamaly, Kerala*

- Perform end-to-end functional, integration, regression, smoke, sanity, and exploratory testing across enterprise ERP, HRMS, and Project Management platforms.
- Execute testing on the Garage360 ERP platform covering Operations, Inventory Management, and Accounting modules; verified tax logic, transaction ledgers, and billing calculations.
- Interact with clients for requirement gathering and clarification, and coordinate between clients and the development team.
- Translate business requirement documents and user stories into comprehensive test scenarios, test cases, and risk-based coverage matrices.
- Validate core HRMS workflows, including employee profile onboarding, attendance tracking, leave management rules, and multi-tier approval hierarchies.
- Verify project management solution capabilities such as task allocation, milestone tracking, resource utilization, role permissions, and status reporting dashboards.
- Validate REST APIs using Postman to verify endpoint payloads, status codes, query parameters, and response schemas.
- Execute SQL queries to validate backend transactions, ledger updates, database state changes, and data persistence.
- Log, track, and retest defects with step-by-step reproduction notes, expected vs. actual outcomes, logs, and screenshots.
- Write basic automated UI test scripts using Playwright with TypeScript to support regression testing.

QA Intern **Mar 2022 – May 2022**

Letmedoit Technologies Pvt. Ltd. *Angamaly, Kerala*

- Executed functional, usability, and UI sanity checks across web applications to catch defects early in sprint cycles.
- Assisted senior QA engineers in preparing test checklists, scenario breakdowns, and bug verification passes.
- Collaborated with developers to clarify issue steps, recreate intermittent errors, and confirm resolved bug tickets.
- Documented test execution results, logged observations, and presented weekly QA status logs.

KEY PROJECTS

Garage360 ERP Platform: Conducted in-depth testing across Operations, Inventory, and Accounting modules; validated vehicle service pipelines, parts allocation, invoicing, tax logic, and ledger balance consistency.

Enterprise HRMS Solution: Tested core human resource workflows including employee master data, leave policies, attendance tracking, role-based access control, and self-service approval pipelines.

Project Management & Tracking Solution: Validated task lifecycles, project boards, time logs, milestone schedules, dependency workflows, and management reporting views.

Tower Management System (SpotOn GIL & TalkPool): Tested telecom site allocation workflows, role-based security configurations, field-level data validation rules, and automated status-reporting pipelines.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications (BCA) 2020
MG University, Kerala

Software Testing Specialist Certified
National Council for Technology and Training (Luminar Technolab, Kakkanad)

Manual Software Testing + Agile with JIRA Completed
